

NWRPA Newsletter December 2025

Unmasking at the Intersections:

Understanding late-diagnosed AuDHD and queerness

Jo McCormick

Monday 8 December 2025

The North West Regional Psychotherapy Association usually posts summaries of our monthly Zoom seminars on this website. This means that this online information is openly available to access, download or circulate.

Sometimes we will restrict circulation of a summary of a seminar. This is usually because of our concerns about client and/or therapist confidentiality.

For this seminar we will not have a summary on the NWRPA website or in an email our members.

We hope this is something you will understand and support.
